## Experience

<https://github.com/Aydhiny>

### Technical Projects

- ◆ CoPlay – Full-Stack Web Platform (2024 – Present)
  - Developed a full-stack web app (Next.js, .NET) that helps programmers level up via coding challenges, courses, and leaderboards.
  - Designed and implemented authentication, real-time leaderboard updates, and UI components with React & Tailwind.
- ◆ Hunter Mouse – 3D Platformer Game (2023)
  - Created a retro 3D platformer with custom game mechanics and professional self-composed soundtrack (6+ instrumentals).
  - Developed the game's logic, physics, and level design, ensuring smooth player interactions.
- ◆ Hackathons & Competitions
  - BEST Mostar Hackathon 2022 – 2nd Place (Smart Parking System Software).
  - Telemach Good Hackathon 2022, EVONA Hackathon 2023, – Participated & contributed to software solutions.
